

A & B Cattle

29th **Annual Bull Sale**

Videos available at
www.abcattle.com

1:00 p.m. Thursday

April 4, 2019

at the ranch 7 miles south of Bassett, Nebraska

Simplifying Your Bull Selections

*If you can't attend the sale,
we can help!*

- ✓ Stop by at your convenience to look through the bulls, anytime before the sale
- ✓ Contact anyone on our sales staff to assist you on or before sale day
- ✓ Or contact Arlen Sawyer at 402/760-0232 or Adam Sawyer at 402/760-2623 to assist you with your purchases
- ✓ Or pre-register for use of DV Auction before sale day

100% Satisfaction Guaranteed

- ✓ Bulls developed on a high roughage ration to express performance differences while insuring longevity and soundness, No Creep Feed
- ✓ Bred for carcass merit and feedlot excellence, with early growth while maintaining calving ease
- ✓ All bulls semen tested, carcass evaluated, AngusGS DNA tested and parent verified with Genomically Enhanced EPDs provided
- ✓ All bulls freeze branded for easy identification, lot tagged with an 840 RFID tag
- ✓ Free Delivery, anywhere in continental U.S.
- ✓ All bulls tested or pedigree proven FREE of all KNOWN GENETIC defects
- ✓ 100% Breeding Season GUARANTEED, No matter how much you spend!

A&B Cattle 29th Annual Angus BULL SALE

Thursday, April 4, 2019

1:00 p.m. at the ranch 7 miles south of Bassett, Nebraska on U.S. Hwy 183

Auctioneer:

Seth Weishaar
Belle Fourche, SD
605/210-1124

Sales Staff:

Jay Nordhausen, Special Assignment 308/289-1548
Drew Feller, American Angus Association
Randy Rasby, Livestock Plus 308/539-6195
Donnie Leddy, Cattle Business Weekly 605/695-0113
Alan Sears, Western Livestock Reporter 970/396-7521
Shane Kaczor, Bassett Livestock Auction 402/684-2361

Accommodations:

Rodeway Inn, Ainsworth, NE 402/387-1050
Bassett Lodge, Bassett, NE 402/684-3379
Super 8 Motel, Ainsworth, NE 402/387-0700

Hospitality:

Wednesday Afternoon & Evening
Complimentary Refreshments and Viewing of Bulls
Thursday 9:00 a.m.
Complimentary Coffee & Rolls
Thursday 11:30 a.m.
Complimentary CAB Rib Eye Sandwich Lunch

Free Delivery:

A & B Cattle will deliver bulls anywhere in the continental United States free of charge. Arlen Sawyer will make delivery arrangements and will assist with the care of the bulls prior to delivery.

Guarantee:

All bulls, regardless of price paid, are guaranteed as breeders. If the animal proves a non-breeder, a satisfactory exchange will be made, or credit will be given in the next sale. Buyer must contact Arlen Sawyer before Sept. 1, 2019 if the bull is unsatisfactory in any way. **SATISFACTION GUARANTEED!**

Inspection of the Bulls:

Bulls may be viewed at A&B Cattle, the Arlen and Becky Sawyer ranch headquarters, seven miles south of Bassett, Nebr. on Hwy. 183 at your convenience. Visitors always welcome!

Semen Evaluation:

All bulls will be officially semen tested by Dr. Chris Finney of the Ainsworth Veterinary Clinic. This test includes semen analysis for vigor, concentrations, morphology and percentage live as well as an examination for physical defects such as abnormal testicles and warts. Scrotal circumferences were taken at this time. Any unsatisfactory bulls are eliminated from the sale offering. Scrotal measurements available sale day or at www.abcattle.com.

Herd Health:

The bulls have been vaccinated with Vista Once and Vision 7 Somnus at branding and weaning and have been poured with Vetrimec and Permetrin CDS. The bulls are ready for interstate shipment.

Lot Numbers:

Lot numbers on the bulls correspond with the numbers in the catalog. The bulls will be lot tagged with an "840" RFID tag which is an official ear tag for all states that can be used for all regulatory programs such as interstate commerce, disease control programs, etc. Most bulls will also carry their original herd tags.

Performance Information:

All printed EPDs in this catalog are the current 2019 EPDs as of Feb. 28, 2019. All of the bulls have genomic profiles which are incorporated in their updated EPDs available in this catalog. Any updates or corrections will be available sale day or prior to the sale on the website.

Liabilities:

All persons attending this sale do so at their own risk, and the owner and his agents assume no liability, legal or otherwise, for any accidents which may occur.

Terms & Conditions:

These cattle sell under the suggested Terms and Conditions of the American Angus Association which briefly state: Terms of the sale are cash unless satisfactory credit arrangements have been made prior to the sale. The auctioneer will settle all disputes as to bids, and his decision on such matters shall be final. Each animal will be at purchaser's risk as soon as sold.

Welcome to A & B Cattle

Dear Cattlemen & Friends,

We couldn't be more excited to invite you to our 29th annual bull sale. Our excitement stems from celebrating 100 years of Sawyer family commitment to raising purebred Angus cattle. This legacy will hopefully enrich the fifth generation of Sawyers as we welcome Augustus James Sawyer to this Angus tradition.

We are truly honored and humbled with the patronage of our customers and look forward to meeting those of you who are new to our program. We are aware that for many of you the cattle business is your livelihood, which is why we have always taken a "no nonsense" approach to our operation. This offering represents what we believe are curve-bending genetics backed by a Sandhills time-tested cow herd.

We would like to take this opportunity to thank our friends, neighbors, and employees for all of their help in preparing for this annual event. We are blessed to work with an excellent group of support personnel too numerous to mention. We truly appreciate everyone!

We invite everyone to stop by our place at any time prior to the sale to inspect the bulls and to visit about your bull needs. We always enjoy showing people around.

On behalf of our family,

Yours truly,

Arlen and Becky Sawyer,
and grandson, Augustus

Adam, Augustus, and Jenessa Sawyer

Augustus and aunt Jessica Sawyer

Optimum Beef Production

....starts with the cow!

Cows are not pampered at A & B Cattle...no supplemental feed on grass, no creep feed for calves. Replacement heifers are expected to excel in fertility, production, and mothering ability. Any female that doesn't pass those rigorous requirements and raise a calf with a nursing ratio of 95 or better is sold...no exceptions!

A cow herd built with females selected for the following traits:

Progeny Weaning Performance
Structure, Udder Quality
Efficiency on Sandhills forages

Fertility
Calving Interval
Moderate Mature Size

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
 - more accurate selection
 - easier identification of genetic outliers
 - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	28	Milk	33
Birth Weight	21	Mature Weight	11
Weaning Weight	26	Mature Height	8
Yearling Weight	21	Carcass Weight	9
Dry Matter Intake	8	Yearling Height	11
Scrotal Circumference	13	Carcass Marbling	9
Docility	10	Carcass Ribeye	12
Heifer Pregnancy	14	Carcass Fat	10

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

- Cowboy Up was the sensation of the spring 2016 bull sale season when two-thirds interest of him sold for \$350,000 and an additional 10% semen interest of him sold for \$120,000 to make him one of the most valuable living Angus sires. A & B Cattle is a semen shareholder of this great sire.
- His first progeny have been thick, deep bodied cattle that have been sought after by cattlemen. His first daughters are now in production at A & B Cattle and they are a cowman's dream.
- 33 sons of this powerful sire sell in this sale!

With the demand for Certified Angus Beef and other branded Angus beef programs at an all-time high, the future is bright for those cattlemen who have the genetics to achieve high quality grades with Angus-sired cattle.

At A & B Cattle we have been "Targeting the Brand" for many years by carcass testing the bottom cut of our bull calf crop and commercial steer calves and collecting ultrasound data on the bulls offered in our annual sales.

Over half of the bulls in the sale offering rank in the top 25% of the breed for \$Beef Value

LD Emblazon 999

"Bull calves not suitable for seedstock are castrated and fed along with the steer calves from our commercial cows at Rolling Stone Feedyard near Ainsworth, Nebr. We've been collecting carcass data on these steers for the past seven years, gaining valuable data on our young sires in comparison to known AI sires." - Arlen Sawyer

- *Payweight is a proven calving ease sire with a powerful phenotype. He ranks in the top 10% of the breed for WW and top 15% for YW, as well as the top 1% for \$Weaning, top 15% for \$Feedlot, and top 20% for \$Beef values. Payweight sires thicker, more moderate framed progeny. His daughters in production are powerful females.*

A & B Cattle...

one of the first Angus herds in the United States to incorporate the American Angus Maternal Plus program.

COMMITMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously.

That's why we participate in MaternalPlus®. Through MaternalPlus, we devote extra time to tracking maternal traits beyond those normally required, ultimately targeting greater performance and predictability.

The data we choose to gather through this inventory-based program today sets the stage for reproductive and lifetime productivity tools tomorrow — tools to pioneer new ways of selecting the most profitable animals.

Herd improvement starts with smart decisions. A commitment to the female starts with MaternalPlus.

Contact AGI at 816-383-5100 or agi@angus.org for more information.

ANGUS MEANS BUSINESS.

- Whitlock has an excellent EPD profile, a valuable maternal pedigree, and the actual progeny performance that verifies the numbers. He ranks in the top 4% of the breed for WW, to 3% for YW and the top 10% for \$Weaning and \$Beef values. He sires growthy progeny that will be popular with cattlemen.

Our Guarantee

You have trouble, we're here to help!

Regardless of price paid, all bulls are guaranteed as breeders.

We don't discriminate against anyone on a budget!

If the animal proves a non-breeder for any reason, a satisfactory exchange will be made,
or credit will be given in the next sale to your full satisfaction.

A No Hassle Guarantee.... Buyer Satisfaction Guaranteed!

A & B Spotlight 3065

Top selling bull in the A & B 2014 Bull Sale purchased by Select Sires. Awesome calving ease sire with 868 progeny submitted for birth weights and weaning weights with progeny ratios of 98 BWR and 101 WWR. %IMF average ratio on 316 head is 106.

DVAuction

Broadcasting Real-Time Auctions

Watch and Bid Online at DVAuction.com

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DVAuction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Creat New Account" tab
- Enter a user name, password and your contact information.
- Complete the Banking Information. (If you are only interested in viewing you can skip this section)
- Select your Time Zone, Accept the Terms and Conditions and click "Create Account"
- Complete the process by answering a few questions, selecting your subscription choices
- Click on "Apply for Bidding" in the upper left corner of your screen to select the sales you wish to bid on
- Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
- If you would prefer to be approved using your credit card, call (402) 316-5460.
- Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

Top Dollar Angus Feeder Calf Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25 percent of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its branding in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25 percent of the breed based on documented historical sire use. DNA evaluation conducted by Zoetis or GeneSeek is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

- Greeley is a high growth son of Confidence that sires high performance cattle. He ranks in the top 1% of the breed for WW EPD and top 3% of the breed for YW EPD. His pedigree reflects four Pathfinder sires in New Design 208, Thunder, 044, and EXT that have been some of the breed's most impactful sires.

Genetics don't lie.

Introducing the new American Angus Association® feeder cattle program.

Angus LinkSM brings the world's most comprehensive genetic database to America's cow herd. The program's three simple scores identify your calf crop's genetic performance potential on the ranch and in the feedlot. Angus Link gives you the information you need to know to make your next calf crop better than the last.

Go to AngusLink.com to learn more.

Using the A&B Performance Records

Performance records are measures of individual weights and measurements taken at various times in an animal's life.

Key to Abbreviated Terms Used in this Catalog:

(BW) Actual Birth Weight - the actual weight of a calf measured at birth.

(Adj. WW) Adjusted Weaning Weight - the weaning weight of an animal adjusted to a common age of 205 days. Bulls are raised on grass til weaning without creep feed. A weight is taken at pre-conditioning (pre-weaning) time to accurately assess the performance of the cow while nursing a calf. Cows are culled based on these weights. About mid-September weaning begins and the bulls are fed a warm-up starter ration until the end of October at which time they are weighed in one contemporary group and weaning weights are taken. From then til yearling time, the bulls are fed a high roughage ration consisting of ground hay and wet distillers by-product to insure an adequate gain of about 3.5 lbs. per day while staying in good, athletic condition.

(Adj. YW) Adjusted Yearling Weight - the yearling weight of an animal adjusted to a common age of 365 days.

(11/7) Actual Wt. Recorded 11/7/2018. On test weight for spring yearlings.

(2/16) Actual Wt. Recorded 2/16/2019. Off test weight for spring yearlings.

(6/13) Actual Wt. Recorded 6/13/2018. On test weight for fall bulls.

(9/10) Actual Wt. Recorded 9/10/2018. Off test weight for fall bulls.

(Adj. Hip) Adjusted Yearling Hip Ht. - a measure in inches taken at the hip at time yearling weights are taken and adjusted to a common age of 365 days. This figure can be translated into a frame score. An adjusted hip height of 47.1 = Frame Score 4; 48.8 inches = Frame Score 5; 51.0 inches = Frame Score 6; and 53.0 = Frame Score 7.

(ADG) Average Daily Gain - a computation of the average daily gain established by the bulls during the 110 day feed test (from weaning to yearling weigh dates)

(Adj. %IMF) Adjusted Intramuscular Fat (Marbling) score - ultrasound reading taken and adjusted to a common age of 365 days.

(Adj. REA) Adjusted Rib eye Area - measured via ultrasound and adjusted to a common age of 365 days.

\$Values - are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. Different \$Values may provide different profit expectations depending on the operation.

(\$W)eaning - the expected average difference in future progeny

performance based on four primary economic impact areas: birth weight, weaning weight, maternal milk, and mature cow size compared to the progeny of other sires.

(\$F)eedlot - the expected average difference in future progeny performance for post weaning performance compared to progeny of other sires.

(\$B)eeff - the expected average difference in future progeny performance for post weaning and carcass value compared to progeny of other sires. Often considered an end product indicator the \$B value combines the contributions of feedlot and grid values.

Additional abbreviations:

(BWR) Dam's Average Progeny Birth Weight Ratio

(NR) Dam's Average Progeny (Nursing) Weaning Weight Ratio

- Denotes a Pathfinder Dam or Sire

Other pertinent information:

~DNA samples are collected on every calf at pre-conditioning time. All bulls in the sale have been AngusGS 50K, parentage, and defect-ed tested.

~All bulls are freeze branded with their tattoo number at yearling time for permanent identification.

~All bulls have had foot scores recorded and submitted to the American Angus Association.
